EXPERIENCE/ABOUT

Experience in learning and performing dialogue heavy scripts on feature and short film productions, playing lead roles.

Choreographed and performed martial arts sequences and more generic fight/brawl scenes.

Emotional/intense scenes to include death (being stabbed, having throat cut), panic attacks and hallucinations.

I enjoy creating a wide range of character types, from psychopath to nerd, emotionally vulnerable to martial artist. I am currently exploring myself as a performing artist and allowing my imagination to run wild; to my delight, in doing this I feel alive.
